Building the nation
with **the wood of the future.**

THE WOOD OF THE FUTURE.

After the industrial revolution and the population explosion, the planet's forests have been shrinking at a rapid pace. The forests that turn globe-warming CO₂ into life-giving oxygen are disappearing because of our desire for natural materials like wood. It's time to work with a better alternative.

Saving trees and forests need innovation, technology, and the understanding that any alternative must look and work as good as wood. Fortunately, there's good news!

Environment-friendly, engineered wood substitutes like CenturyHDF's Medium Density Fibreboards are the perfect way to kill fewer trees. And still, let mankind enjoy the beauty and brilliance of wood.

MDF Manufacturing Plant, Hoshiarpur, Punjab.

THE PARENT COMPANY- CENTURY PLYBOARDS (INDIA) LTD.

CenturyHDF is a part of Century Plyboards India Ltd, India's leading integrated wood panel company founded in 1986. CenturyPly has been the pacesetter for applying innovation at work. Our relentless desire to improve and enhance our product has helped us deliver contemporary lifestyle statements that have become synonymous with modern living. CenturyPly is the undebated choice of architects and interior designers who strongly recommend our products for embellishing ordinary steel and concrete structures to expressions of one's personality. CenturyPly follows the philosophy of creating value-for-money products and improving our already existing range of products through extensive research and customer feedback. Since its inception in 1986, the company has taken large strides and is today the largest seller of multi-use plywood and decorative veneers in the Indian organized plywood market.

CENTURYHDF

CenturyHDF was established with the vision of providing path-breaking solutions in wood and wood-related industries. It took a continuous emphasis on innovation and an intense focus on product quality to bring that vision to life. As consumer needs diversified, CenturyHDF grew its range of offerings too in the engineered wood category. Along the way, the brand pioneered new technologies for the Indian market and set the bar higher and higher on business standards. CenturyHDF's commitment to R&D is reflected in rising investment in this area, resulting in newer and better products for the ever-evolving customers, architects and interior designers.

ENVIRONMENT-FRIENDLY CENTURYHDF

- CenturyHDF is the first company in India that provides traceable and sustainable MDF products to the market.
- In early 2019, Century collaborated with Earthworm to manufacture and supply MDF which conforms to "European Union Timber Regulations" requirements.
- Apart from this, CenturyHDF products also conform to E1 grade and TSCA certifications.
- CenturyHDF has usurped wood as the most preferred material for furniture due to its high sustainability and environment-friendly. It's made from viable resources, which give it all the advantages & luster of wood without compromising Earth's health.

CERTIFICATIONS

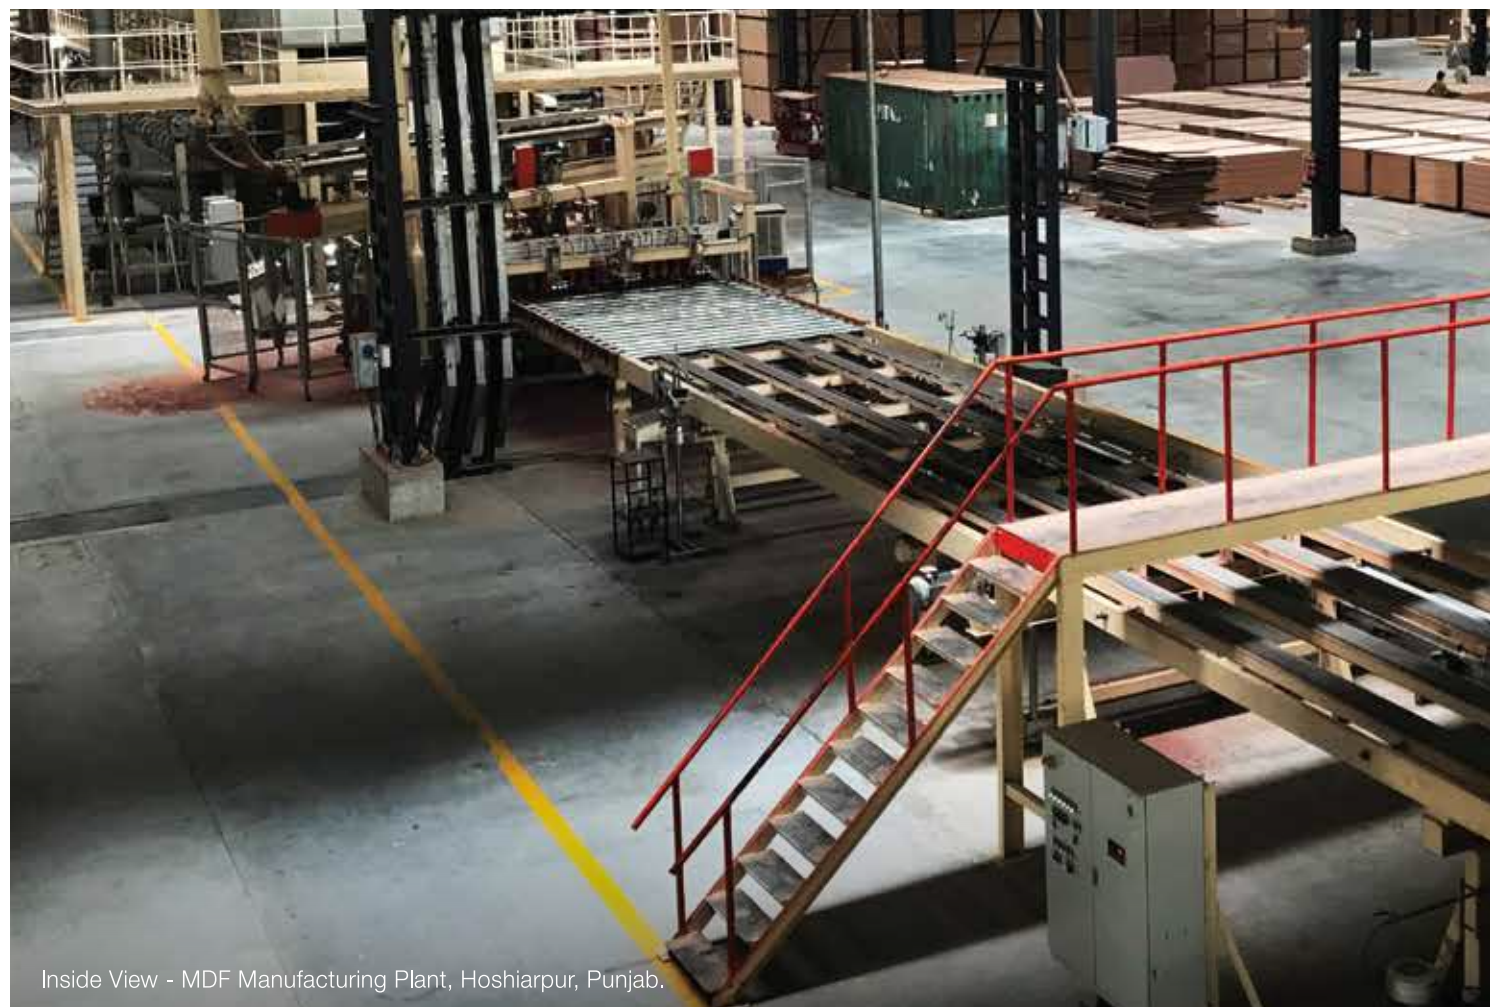

The world-class **MDF**
Now comes with
VIROKILL
Kills 99.99% Viruses

*Virokill feature is available only on Prelam MDF and Prelam Particle Board.

STATE-OF-THE-ART MANUFACTURING PLANT

CenturyHDF is a product of the most advanced plant in the country, with machinery and equipment that ensures a world-class product. Spread over 1,57,600 sqm (32,660 sqm of covered area) in Hoshiarpur, Punjab, this plant is also one of the largest MDF plants in the country, with a capacity to produce 600 cbm per day (over 2,00,000 cbm annually) of the best MDF in India, with superior density and a wide range of colours to choose from.

RESEARCH AND DEVELOPMENT

Our commitment to R&D is reflected in rising investment in this area, resulting in newer and better products. We were the first to develop Borer Proof and Boiling Water Resistant products. As an organisation too, we are structured flexibly to enable innovation. That's what it takes to come up with products like CenturyHDF - the wood of the future. As technology and tastes evolve rapidly, consumers, architects, and interior designers constantly seek new solutions. We endeavor to ensure that they can express their individual creativity precisely as they desire.

10 Reasons

WHY YOU SHOULD USE
CENTURYPROWUD
PRELAM BOARDS

1. A wide range of shades in pastels, textiles, and woodgrains
2. Matching post-forming laminates are available
3. Environment-friendly product
4. Excellent machinability
5. Borer and termite resistant
6. Resistant to fungus and stains
7. High surface resistance to steam and heat
8. High screw holding strength and load-bearing capacity
9. Free from warping and surface defects
10. Bacteria-free surface due to Silver Nano Technology

**OUR RECOGNIZED AND CERTIFIED PRODUCTS
SPEAK FOR ITSELF.**

CENTURYHDF AND PARTICLE BOARDS. WOOD SOLUTIONS FOR THE NEXT GENERATION

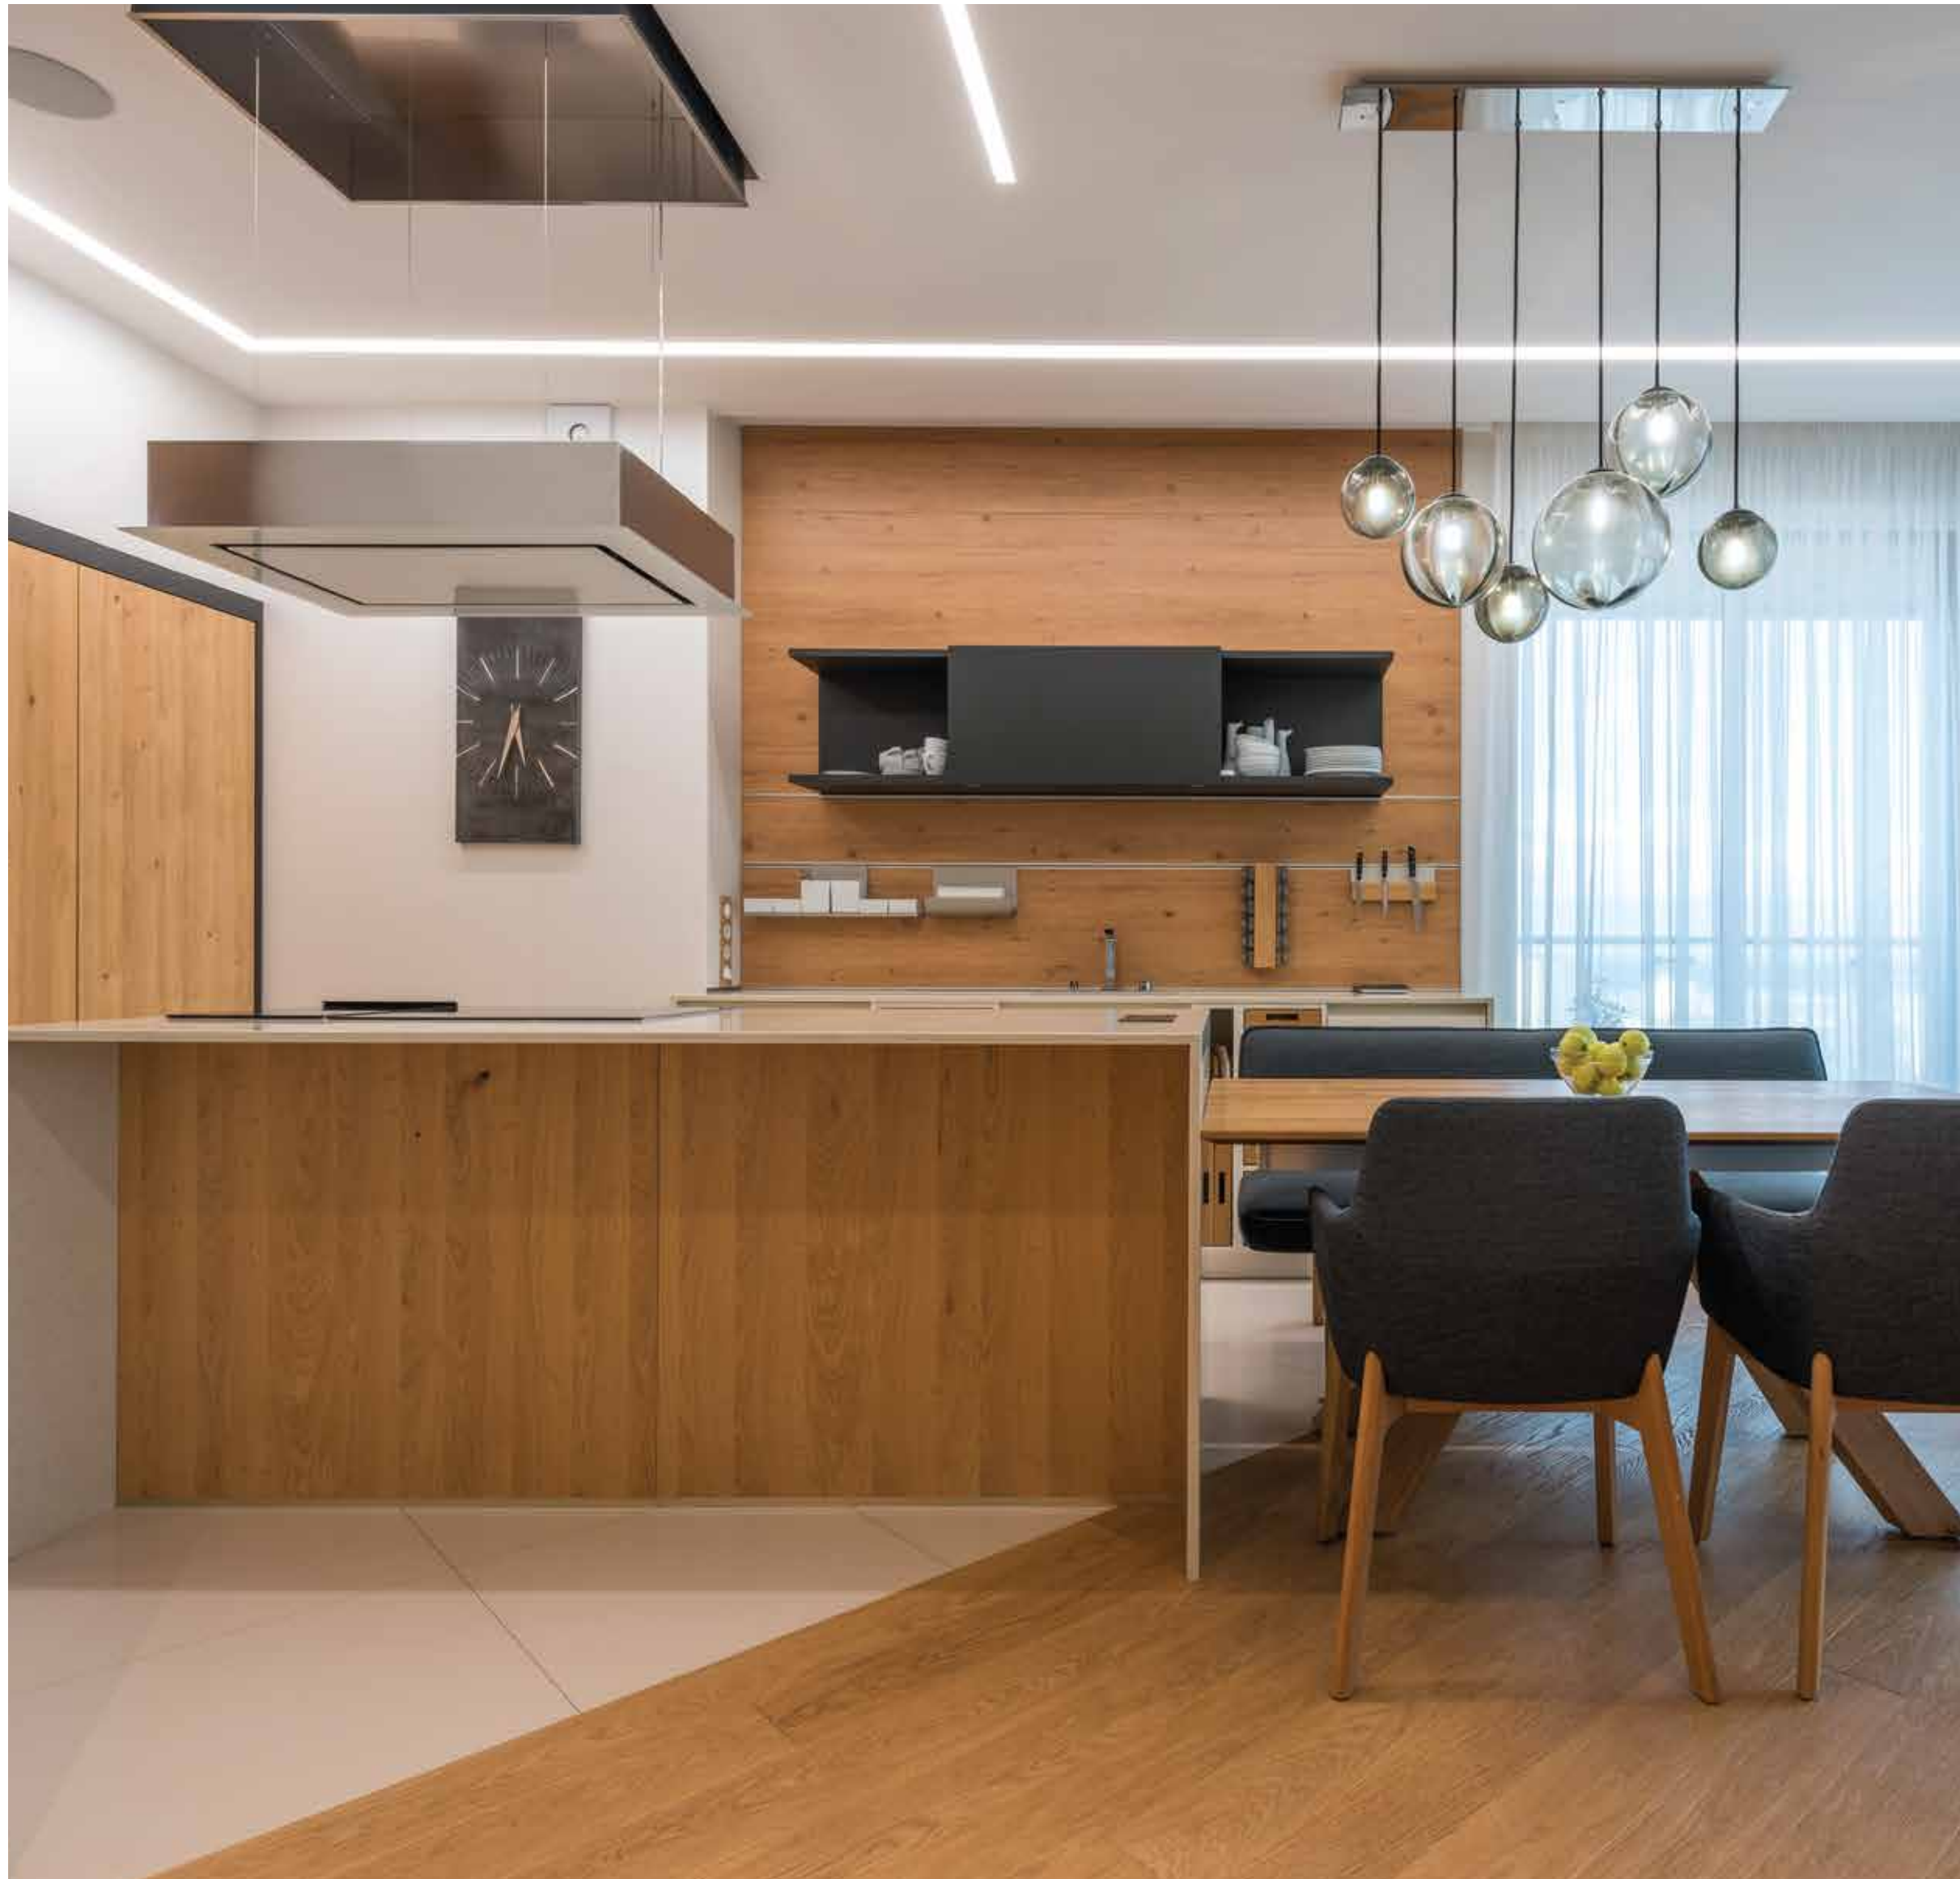

CenturyHDF is a revolutionary product that consists of a wide range of high-quality engineered wood substitutes. It meets the evolving demands of modern consumers by being:

Versatile: CenturyHDF is carefully engineered to make precise routing, machining, and finishing possible. The product provides chipping-free edges, and can easily be carved and moulded. This makes CenturyHDF highly versatile and suitable for specialised applications requiring unique shapes or intricate designs. When it comes to designing furniture or other interior elements, now the only limit is your imagination.

Smart: CenturyHDF comes packed with superior technical features which provide strength and durability even under harsh conditions. Each board is constructed with Scalper Technology, and quality checked at 128 individual

points. This ensures uniform and high density, smoothness and routing grade quality, and resistance to adverse environments and pests. Our products are accredited by the Indian Green Building Council.

Beautiful: CenturyHDF provides both strength and beauty. Ultra-smooth surfaces make them perfect for painting, polishing, and providing a high gloss. The smoothness also makes them the perfect substrate for laminates and veneers. Prelaminated boards, backed by the wide range of Century laminates, provide choices in terms of colours and designs, which help our customers to express their creativity freely. CenturyHDF enables interiors that can be aesthetically tailored to individual choice.

PREMIUM PLUS

Low Emission Premium Plus is the healthier solution to all your furniture and interior needs. It is made with higher density and fulfills almost every criteria a customer could ask for - it's borer, termite & fungus resistant, high moisture resistant & healthy. It is E1 Grade compliant, making it a healthier alternative to wood. Low Emission Premium Plus even has the confidence to offer an unparalleled 5-year warranty. Its availability in all thicknesses of Pre-laminated & Plain Premium Plus helps you design stunning interiors and furniture.
